Security Measure

To help us with identification of members who do damage through ignorance of regulation or have a lack of respect for public or private people's property when at AMPO locations members are asked to put their vehicles license plate numbers and states of plate of all vehicles that you expect to use. This will only be used in case of emergency or when a person does not leave the location the way they found it. This may also help identify a person who is not a member doing damage to an AMPO location. You may update this information at any time. When an organization has damage that was done, weather through ignorance or neglect it cost the organization and all of the members. This is a way to help keep areas open and to show agencies and property owners that we are tracking damage to make sure the responsible person(s) are held responsible to take care of any damages.

This may also help if there is a reported vehicle in which the owner is hurt and away from his vehicle.
